Dear Educators:

*The San Benito County Office of Education and school districts are committed to providing our students with instruction of the highest quality. Collaboratively, this Professional Development Calendar was developed to provide high quality professional development for the educators, instructional assistants, and administrators of San Benito County.*

*This calendar of professional development opportunities is for Summer and Fall of 2010. Additional workshops will be included, remember to check the monthly First Thursday Flyers.*

*I encourage all certificated and classified personnel to consult with your supervisors and join your colleagues for workshops in teams of two to five, so that the collaboration and learning may continue in your ongoing site level meetings.*

*On behalf of the school districts and County Office of Education, I encourage you to take advantage of these local opportunities. I am confident you will find them to be very worthwhile. Together we will make a difference!*

Sincerely,

Mike Sanchez  
San Benito County Superintendent of Schools

## **RtI<sup>2</sup>:** *Incorporating Reading Strategies into a K – 8 RtI<sup>2</sup> Framework*

Dr. Anita Archer will integrate reading into a Response to Intervention (RtI) model in a practical “doable in the real world” approach for K – 8 educators. She will address how quality instruction and progress monitoring – cornerstones of RtI – can be instituted at the classroom and school level. She will show how state-adopted reading/literacy program can be used, along with other evidenced based programs, to intervention in a multi-tiered intervention approach. Dr. Archer is an extraordinary high octane presenter with a phenomenal sense of humor. You will leave the two days filled with knowledge, strategies, and a “can do” attitude.

## SB 472:

### *English Learners Professional Development*

The main purpose of the 40-hour training is to support effective implementation of the English Language Development component of the State Board adopted materials and supplementary materials. This curriculum was developed by a consortium of eight county offices and is entitled Professional Development Collaborative for Teachers of English Learners (PDCTEL). Key Outcomes: Know how to use curriculum frameworks to differentiate instruction through universal access; know how to measure and analyze the achievement of ELs and how to use this information to improve pupil performance; plan and teach ELD and monitor student progress at each level of English proficiency; know and understand oral language, vocabulary and writing development; know and understand effective comprehension and instructional strategies; know and understand early intervention techniques. A minimum of 15 participants is required.

**Focus Audience:** K - 12 Educators

**Presenter:** Margaret Douglas

**Registration:** <http://santaclara.k12oms.org>

**Cost:** \$750

<b>Dates</b>	Monday, June 21 – Friday, June 25
<b>Time</b>	8:30 AM – 4:30 PM
<b>Location</b>	Santa Clara County Office of Education

## *Writers' Workshop:*

### *Central California Writing Project Building Skills through the Narrative Genre*

Are you unclear about what a Writing Workshop really looks like? Have you been intrigued by the Writing Workshop philosophy but you're unsure of how to implement it? Are you someone who has used Writing Workshop but would like an opportunity to deepen your understanding? Using the Lucy Calkins model for Writer's Workshop participants will explore: mini lessons, genre study, student ownership of topic, creating a community of writers, analysis of mentor texts, time for talking and teacher modeling of the passion for writing. Teachers will participate in their own Writer's Workshop as well as develop one or more complete units for use in their 2010-2011 classrooms.

**Focus Audience:** K - 8 Educators

## *21<sup>st</sup> Century Classroom: Promethean Space Camp*

Using Promethean ActivInspire to Support the Core Curriculum

Participants will learn how to use Promethean ActivInspire to support the core curriculum. This training will provide access to a hands-on workshop at beginning, intermediate and advanced levels affording learners the opportunity to work collaboratively to create interactive flipchart lessons in ActivInspire. The use of this software will enhance teaching and motivate student learning, fostering critical thinking skills and creating differentiated learning environments. This course connects students to the real world and community. Specific course descriptions are available on the online registration site listed below.

The registration fee includes access to all conference course offerings. A limited continental breakfast will be provided each morning.

An hour lunch break will be scheduled each day, a list of local restaurants will be available to participants.

## **EL:** *A Look at Learning Training of Trainers*

A Comprehensive System for Improving English Learner Academic Achievement

This training is designed to help districts build capacity in developing a cadre of experts who are highly committed to increase the academic achievement of English learners. This training supports effective implementation of the ELD and academic language development components of the State Board adopted and supplementary materials and SB 472 English Learner Professional Development curriculum for K-12 teachers.

*A Look at Learning Professional Development* model has extensive tools, facilitator guides and video resources linked to the California Standards for the Teaching Profession to provide schools/districts a system that addresses four essential components of effective English learner programs: learning environment, planning, applying best teaching and learning strategies and using assessment for differentiation. Implementing these components requires commitment over a period of years. Results of school implementation can be collected and analyzed annually with attention to specific focus areas if necessary.

### **Goal:**

In order to increase student achievement, participants will gain information that is necessary to implement and present the comprehensive *A Look at Learning* system to schools/districts.

### **Outcomes:**

- Understand the steps in the *A Look at Learning* system.
- Know how to use *A Look at Learning Professional Development* tools to engage teachers in identifying areas of instructional practice that will maximize student achievement.
- Recognize effective strategies and student engagement behaviors that support English learners' academic achievement.
- Recognize student engagement behaviors and analyze student work samples that match lesson objectives and standards.
- Know how to support teachers' self-reflection through job-embedded training and learning over several years.
- Build collaborative structure that promotes high quality dialogues to increase student achievement.
- Know how to set up a school-wide system that measures changes in teacher practice and levels of student engagement, and apply the information to improve student performance.

## **Mathematics: San Benito County Math Institute**

This series for Mathematics Teachers will help to deepen your understanding of the mathematics you need to teach to the California Standards; further develop your ability to use your textbook effectively to teach important mathematics; learn strategies that work with diverse populations and how to improve lesson plans; build a collaborative support network with other teachers and ACCLAIM and SBCMI staff members. Participants will earn a stipend and (optional) college credit: 2010-11: \$1500; 2011-12: \$1500; 2012-13: \$1500 (Stipends are provided for full participation in summer institutes, site-based coaching, and two Saturday sessions)

This institute is only open to current SBCMI participating teachers from Hollister, Aromas-San Juan, North County Joint Union, San Benito High School, and Southside Elementary School Districts.

For more information please visit our ACOE Mathematics website at <http://www.acoe.org/math>

## **Language Arts: Gradual Release of Responsibility (GRR) in the English Language Arts Block**

The gradual release of responsibility model of instruction suggests that the cognitive load should shift slowly and purposefully from teacher-as-model to joint responsibility, to independent practice and application by the learners. Join us as we use Doug Fisher and Nancy Frey's book, *Better Learning through Structured Teaching* as a guide to develop a comprehensive English language arts block. Specific attention will be given to strategies to ensure access and opportunity for all students in the classroom. Continental breakfast, lunch and materials provided.

## **Collaboration:** *Building Better Teams*

Teams have become a principle building block of successful organizations. This one-day workshop is a basic course for team leaders and team members, designed to focus on the characteristics of an effective team player and the elements of an effective team. Participants will leave the workshop with plans for personal development as a team player and ideas for developing the 'back-home' team.

A critical element of this workshop is the Glen Parker Team Player Survey (PTPS), an 18 item self-assessment instrument that will help participants identify their primary team player style, help increase personal effectiveness in team situations, and help participants effectively develop their group into a high performing team.

### **Learning Objectives:**

- Learn about your team player style.
- Identify ways you will want to change to improve your team player style.
- Better understand and appreciate differences among team members.
- Identify those ways your team must improve to be more effective.
- Develop an action plan for those improvements.

## ***An Overview of Positive Behavioral Interventions and Support (PBIS)***

PBIS is a systems approach for establishing the social culture and individual behavior supports needed for schools to achieve both social and academic success for all students while preventing problem behaviors.

At this **introductory** workshop, participants will receive an overview of the research supporting Positive Behavioral Interventions and Supports (PBIS). Results will be shared from districts and schools that have successfully put PBIS into practice. Information will be provided on the steps needed to implement school wide and classroom support systems for PBIS. Planning tools and specific strategies will be provided. Schoolwide Information Systems (SWIS) will be discussed as a progress monitoring and decision-making tool. Participants will see examples and learn how to develop Behavior Support Plans (BSP). An overview of specific strategies and targeted interventions such as Check In/ Check Out will be shared. Participants will see examples of Behavior Intervention Plans (BIP) based on Functional Analysis Assessments (FAAs) and learn how these are used in successful PBIS implementation.
